

### OFFICIAL RECORDS PLACE MAYNARD AS SECOND IN FLIGHT

New York, Oct. 23. — Lieutenant — Official calculation of the flying time of Lieutenant E. W. Maynard in the transcontinental aerial derby, received from the air service department at Washington by the American Flying club today, eliminated him from first place.

His official time in the air was 69 hours, three minutes, 40 1/2 seconds. This includes 18 hours lost because of an accident on the east bound trip.

The unofficial time of Captain J. O. Donaldson, second to complete the race was 49 hours, 56 minutes and 11 seconds. He is also credited with establishing two world's records on the flight, one for covering the 5400 miles at an average speed of 108 miles an hour and the other for making a single day's flight of 823 miles last Saturday when he flew from Rock Island, Ill. to Binghamton, N. Y.

### WAR DEPARTMENT HALTS DELIVERY OF HAND BOMBS

Grenades Were to Be Given  
Away as Souvenirs to  
Stamp Buyers

Delivery of 15,000,000 hand grenades to the Treasury Department to be converted into savings banks for the stimulation of thrift and sales of War Savings Stamps has been held up by the War Department and contracts which the War Department had with the Treasury Department for supplying the grenades were cancelled, according to a telegram received from Washington by C. A. Farnsworth, associate director of the War Loan Organization in the Twelfth Federal Reserve District. No reason was given for cancellation of contract beyond the fact that the War Department has "determined that the distribution of hand grenades as souvenirs should be discontinued."

The grenades in question, known as Mills bombs No. 11, were ready for shipment to the American forces in France when the armistice was signed. At the request of the Treasury Department the War Department agreed to turn these banks over to the Treasury Department for conversion into savings banks, and immediately upon announcement that they would be distributed to the purchasers of War Savings Stamps and Treasury Savings Certificates, millions of orders flooded in. In the Twelfth Federal Reserve District alone banks and trust companies through which the grenades were to be awarded had ordered nearly 100,000 of the souvenirs. These and all other orders throughout the nation will have to be cancelled.

In his telegram to Farnsworth the Treasury Department stated that Certificates of Achievement signed by Secretary Glass will be awarded instead of the grenades to all school children who worked during the vacation to obtain a bank and who bought enough War Savings Stamps to entitle them to grenades.

### Japanese Liner Grounds But Is Later Floated Again

San Francisco, Oct. 23.—(United Press.)—The Nippon Maru, a 11,000-ton passenger steamer of the T. K. K. line, which grounded on a rocky beach off Point Pedro at 7:30 Wednesday, at 10:46,

was floated shortly before 9 o'clock, according to reports received by the company.

The Nippon Maru is a 11,000-ton twin screw steamer. It carries 283 passengers, 114 of which are first cabin.

It is expected to anchor in the bay after being given up as lost, a victim of the Lusitania. LeRoy O. Steinko, a resident of Catlow valley, has returned to his home in Harney county after serving two years in the heavy artillery in France and Germany.

### WATER PERMITS ASKED

Applications for permission to appropriate water have been filed with State Engineer Percy A. Cupper by O. C. Turner, Freewater, who seeks to irrigate a small tract from springs, James Martin, Rogue River, who desires to use water from a spring for irrigation of a small acreage and for domestic purposes, and by E. H. Pratt, Haines, for the construction of a small reservoir on Dutch Flat creek to irrigate a small tract. C. H. McKendree, Lakeview, has filed application for a permit to appropriate water and for the construction of a reservoir for the storage of 15,000 acre feet from Fish Hole creek. He plans to irrigate a tract near Ely.

After being given up as lost, a victim of the Lusitania, LeRoy O. Steinko, a resident of Catlow valley, has returned to his home in Harney county after serving two years in the heavy artillery in France and Germany.

### Chamberlain's Cough Remedy

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. "I improved rapidly." — Miss Emma Verbyke, Lima, Ohio.

THIS AWE...  
To sew up wire cuts on stock. Special with needs and pool of waxed thread, 60 cents. By mail, 75 cents. Full directions with same. The Brown Mercantile Co., 371 First Street, Portland, Oregon.

Good for Biliousness  
"Two years ago I suffered from frequent attacks of stomach trouble and biliousness. Seeing Chamberlain's Tablets advertised I concluded to try them. I improved rapidly." — Miss Emma Verbyke, Lima, Ohio.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful dependable "Danderine" from any store, will save your hair, also double it's beauty. Try "Danderine" and see!

### United States Tires are Good Tires

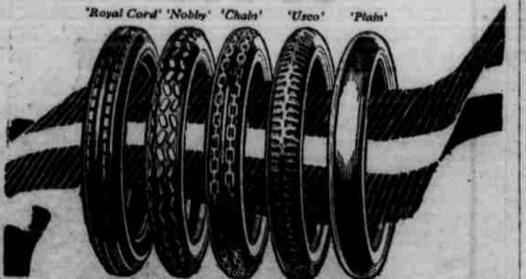

### A Real Non Skid

Dam Warm Springs Irrigation District, Riverside, Or., Now Completed.

### History and Development of Warm Springs Irrigation District

The Warm Springs Irrigation District, organized in 1916, is located in Malheur County, Central Eastern Oregon, and is comprised of 29,000 irrigable acres. It is about 600 miles east of Portland, Oregon, 100 miles east of Pendleton, Oregon, and 40 miles west of Boise, Idaho. The population of the District is estimated at 4,000, which includes that of the cities of Vale and Ontario within and adjacent to the District, though excluded therefrom. Vale is the county seat of Malheur County, and the headquarters of the District are located there. Vale and Ontario, which were incorporated in 1929 and 1939, respectively, EACH have two banks with an aggregate capital of \$235,000 and total resources on January 1, 1919, of \$2,320,000. The 1919 assessed valuation of said two cities is \$1,181,782. Ontario is on the main line of the Oregon Short Line Division of the Union Pacific System from Omaha to Portland, and the entire District is traversed by a 150-mile branch line running from Ontario to Crane in Harney County.

The \$1,500,000 6% bonds have been sold by the above District to enable it to acquire a reservoir site and to construct a dam to impound about 170,000 acre feet of the flood waters of the Malheur River and also to enlarge and extend the existing canal system.

The construction of the dam six miles from Riverside Station has been completed and it is estimated that the distribution system will be practically complete by December 1, 1919.

The storage of 170,000 acre feet of flood waters of the above river

will complete the supply to 12,000 acres of land that have been in the past partially irrigated and will make available a full supply for a total of 40,000 acres, which is in fact 11,000 acres more than the irrigable areas available for the application of this surplus stored water and the furnishing of providing for the use of said surplus waters are now being arranged.

The construction of the dam and works has been done by the Shattuck-Edinger Company of Portland, San Francisco and Los Angeles, and for the completion of the dam is unparalleled for a similar structure.

The practice of irrigation in this section dates back to the early 1800's. Thus, the susceptibility of the soil to irrigation, its fertility and the productive value of the land are matters of history and not theory or expectancy.

STAPLE CROPS PREDOMINATE, such as wheat, barley and alfalfa. A very conservative estimate of average per acre yields for which the soil is capable is 25 bushels of wheat, 55 bushels of barley and 7 tons of alfalfa. It is believed that the average gross value of the crops grown during 1917, 1918 and 1919 on land representing only 40% of the entire numbers of cattle and sheep contributes materially to the farming revenues which the property owners derive.

Under the Irrigation District Law of Oregon the bonded indebtedness of those districts which have been certified as above is limited to 50% of the aggregate market value of the lands within a district, and of the water, water rights, canals, reservoirs, reservoir sites and other irrigation works owned or to be acquired or constructed.

The principal and interest of the bonds are, by law, "paid by the revenue derived from the annual assessments upon the lands in the District, and all the lands in the District shall be and remain liable to the assessed for such payments as herein provided, and under and subject to the provisions of this act." The lien of the tax ranks AHEAD of that of all first mortgages.

The law provides that the Board of Directors of the District shall certify the equalized assessment roll of the District to the COUNTY ASSESSOR, whereupon the County Assessor enters same upon the COUNTY assessment roll in the same manner that municipal assessments are entered by him on said assessment roll. Such tax is collected and accounted for IN THE SAME MANNER AS MUNICIPAL TAXES, and the collection thereof enforced in the same manner as the other taxes of the county.

Legality of the Issuance and Sale of These Bonds Has Been Approved by Messrs. Teal, Minor & Winfree, Portland, Or.

For entering subscriptions or for further information set forth in descriptive circular, call upon or address

### WSS

### You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluff, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

### TAKE NO CHANCES WITH THAT COLD!

Relieve it quickly with Dr. Bell's Pine-Tar-Honey

DR. BELL'S Pine-Tar-Honey is a remedy that has for years stood by thousands of cold and cough suffering men, women, and children in helping to promptly and effectively relieve these dangerous attacks. Severe colds or colds newly contracted are benefited by its pleasant balsamic and healing antiseptics. Phlegm is soon loosened, irritation eased, inflammation allayed, breathing made less difficult.

You can give the children Dr. Bell's Pine-Tar-Honey, too. Safe and economical. Get a bottle today from any druggist. 30c, 60c, \$1.20.

A Good Family Friend.  
Po-Dolax acts promptly, smoothly, comfortably on the most stubborn bowels, eliminating the waste, poisonous accumulations without giving rise to disagreeable after-effects. Beware of cheap imitations. All druggists.
